CopperKey®

The fastest, easiest, safest way to prep copper!

- Double stemmed brush quickly cleans inside fittings.
- Quick, thorough tubing prep with patented abrasive technology
- Up to 3 times faster than traditional prep tools and 4 times more durable.
- Eliminates the risk of scrapes or flux burns.
- Patented ratchet handle makes the job easier in tight spaces.

CopperKey for Copper Tubing
Made in Canada

Operating Instructions

1. Gripping the tool, use the ratchet to twist it in a clockwise direction as you push it onto a tube or into fitting until fully seated.
2. Turn ratchet handle in a clockwise direction until tubing or fitting is clean.
3. To remove the tool, pull while twisting the ratchet handle in a clockwise direction.

Note:

On first use brushes will fit tightly. However they will seat themselves quickly.

Visit

Always wear proper eye protection.

Follow all industry standards. Do not use tool for any other purpose.
