PRODUCT INSTRUCTIONS

Product Code: **2950V** Description: **Sample Mopitup®**
Product Code: **2951Y** Description: **Pack 3 Mopitup®**

mopitup
by 'ProSys International'

370mm x 370mm
EACH SHEET ABSORBS UP TO 2 LITRES OF WATER
READ INSTRUCTIONS BEFORE USE
Made in EU UK.

The versatile super absorbent sheet.
The quick, easy and effective way to clean up all water based spillages in the home or workplace.

Ideal for :

- plumbing emergencies and repairs
- dripping radiators.
- radiator and pump removals
- leaking pipes, toilets and basins
- overflow leaks in roof tanks
- leaking hot water tanks
- fridge and freezer defrosting
- large floor spillage
- protection for carpets and floors
- draining header tanks
- no drips, no mess, no stains
- water is 'locked' in and cannot be squeezed out, unlike a sponge

Material Safety Data Sheet available from www.monument-tools.com

INSTRUCTIONS

- Mopitup® will **ONLY** absorb water based fluids.
- **DO NOT** use on oil or chemical based fluids.
- **DO NOT** cut or pierce the Mopitup® before or after use as the gel or absorbed water will spill out.
- **DO NOT** tread on the Mopitup® as it will be a slip hazard.
- **DO NOT** eat or ingest the Mopitup®.
- Can be used until it is 'full'; beyond its capacity water will run out and it will then drip.
- Warm water works faster, cold water slower but all water will be absorbed.
- Mopitup® is designed for a slow steady trickle, not 2 litres tipped straight on it, or water will splash off.
- The take up will be slightly less with water contaminated with rust or heavy sewage; just use another one!
- The Mopitup® can be placed **ONTO** spilt water by turning it so the plastic side is upper most and the net is towards the water spill.
- The Mopitup® can be placed **INTO** water containers and will "suck" out the water i.e. draining cisterns, drains, holes.
- The 'gel' is non toxic and safe (but note that the contents are only safe NOT the additive contaminant).

DISPOSAL

Recommended disposal in land fill /builders skip/standard house waste.
The Mopitup® is NOT biodegradable but is degradable to non toxic, environmentally harmless end products.
