Net 32 fl. oz. (1 qt.) / 946ml

For a healthy plumbing system call Dr. Roebic!

ROEBIC
K-57 Septic System Cleaner

ISO-14021
*SCS-BIO-01075

ROEBIC K-57 Emergency Septic System Cleaner is used to correct systems that are overworked and sluggish. Made up of special bacteria, **K-57** provides a concentrated attack on clogged areas relieving overloaded septic tanks, cesspools, and drainfields. **K-57** will not damage drains, pipes, disposal systems or porcelain because it contains no corrosive materials.

DIRECTIONS

1. Use at night before retiring.
2. Shake well. If the toilet bowl can be flushed pour entire contents into the toilet bowl and flush twice. If toilet cannot be flushed pour entire contents directly into septic tank or cesspool. Discard container.
3. Use one quart per each 500 gallon tank or pool capacity.
4. Reduce use of toilets, sinks, baths and washers to a minimum for 24 hours after applying **K-57**.

After system is restored to normal, use **K-37** for septic tanks or **K-47** for cesspools to prevent future problems.

Non-Flammable

CAUTION: Harmful if taken internally.

Keep out of reach of children
