

SEBO FELIX

MADE IN GERMANY

RELIABILITY AS STANDARD

SEBO FELIX - FAST, LIGHT & POWERFUL

APPROVED BY

Arminster Carpets Ltd

A Company steeped in skill, intelligence and pure genius spanning over 25 years brings us the SEBO FELIX. SEBO, the global leader in commercial uprights, has sold over 3 million vacuum cleaners since its foundation.

A SEBO vacuum cleaner is the intelligent choice for commercial and domestic environments. They can be relied upon to consistently provide professional cleaning performance, day in, day out. Renowned for their reliability, durability and outstanding performance, their “Made in Germany” label is a worldwide symbol for excellence.

The FELIX extends the SEBO range, offering professional performance for the home in a lightweight, versatile and easy to manoeuvre machine.

The SEBO FELIX is designed to be suitable for all floor types, with the on/off ET power brush, the SEBO PARQUET brush, and the SEBO KOMBI nozzle for optimum cleaning performance on any floor. Available in eye-catching designs, choose which FELIX model best suits your home or style; The NAVY, PET, CLASSIC, FUN or ICE BLUE.

Carpet manufacturers recommend SEBO....

....and not just for red carpets. Although many of the world's corridors of power are cleaned with a SEBO, cleaning with SEBO vacuum cleaners will ensure the appearance and longevity of any carpet or flooring whether it's the White House, The Red Lion or 41, Magnolia Avenue!

SEBO FELIX VERSATILITY

Quick Release cable – The quick-release cable hook is designed to be flush with the rear of the FELIX, letting the machine go as low as possible for under furniture cleaning. A 9.5m cable length allows for an extensive cleaning range.

Variable Suction Control* – From 300 – 1300W, for gentle dusting to optimum hard floor cleaning, you choose the best power setting to match your needs.

Flat to the floor design – The 15cm height when flat enables the FELIX to clean under furniture and other hard to reach places.

Telescopic Handle* – The FELIX features a unique height adjustable handle; perfect for compact storage, easy carrying and variable user height requirements.

Instant use hose – The integrated hose is immediately ready for cleaning hard to reach areas. A range of SEBO attachments can be fitted to the hose.

Detachable suction unit – When detached from the power head the FELIX transforms itself into a lightweight, powerful suction unit, which can be carried around with its comfortable carrying handle. Ideal for cleaning stairs, car interiors or upholstery.

* Depending on model

The “Flex” neck of the FELIX gives 90° vertical and 180° horizontal movement, providing superb manoeuvrability for easy cleaning around obstacles.

Protective handle bumper – The soft handle tip is designed to help stop the FELIX from sliding down if left upright against surfaces whilst also protecting against possible damage or marking.

Air filtration – Design and function as one – S-Class-filtration provides the FELIX with an advanced filtration system in a distinctive appearance. The large surface area of the exhaust filter diffuses the airflow and also absorbs motor noise.

Easy and hygienic bag change – The bag drops easily into position and is firmly fixed in place when the cover is closed. The integrated sealing cap ensures that all dirt and dust is safely secured when handling the bag.

Easy brush change – No tools are required to remove the cassette-style brush roller making cleaning or replacement easy. The double helix design of the brush also gives superb brush action.

Suitable for any surface - The power head has a foot operable switch to turn the brush on and off. Alternatively for hard floor the parquet brush can be used. These options make FELIX the ideal choice for homes with a mixture of floor types and also for delicate flooring such as wool loop carpet.

SEBO FELIX FILTRATION

Filtration – All round clean air

Clean indoor air is paramount for those who suffer from allergies, have pets or just want a dust free home. Choosing the right vacuum cleaner is essential to achieve this. The FELIX comes as standard with a 3-stage filtration system of proven effectiveness.

FELIX filter system – No escape for dust

SEBO filtration has been proven in professional environments for years. Experienced in providing high quality filtration for hospitals, hotels and office buildings, SEBO offers the same standard for the home with the FELIX.

The SEBO FELIX is suitable for every home.

Whether you have carpet or hard floor, you can choose the option which best suits you; the SEBO ET power head, the SEBO PARQUET, or the SEBO KOMBI.

The FELIX filtration system uses the principle of electrostatic. The filter fibres have a static charge, which attracts particles to them - in the same way that static attracts dust to your television screen! Other filters clog because they act as a physical barrier to dust. The electrostatic material has a relatively open texture which lets air flow easily yet traps dust particles, thus giving excellent filtration **AND** excellent suction.

SEBO ET power head

This power head has an electronic guidance system, which indicates the correct height setting for optimum cleaning performance. As a safety feature the electronics shut the motor off should the brush roller become obstructed. For cleaning or replacement the brush roller can be removed easily, simply by pushing a button.

The brush can also be manually switched off, making it suitable for delicate floors or rugs e.g. wool-loop pile carpets.*

A soft bumper protects the power head against any knocks.

Certified Filtration Quality

The S-Class-Filtration system meets the demanding requirements of asthma and allergy sufferers, because fine dust particles are firmly retained inside in the machine and not released into the air.

Three stages of filter clean the air before it is exhausted.

A. Stage one consists of the sealable multi-layer filter bag. This effectively retains bacteria, allergens and other potentially harmful substances for safe disposal.

B. The second stage is the Motor Filter, positioned underneath the filter bag, which also protects the motor.

C. The final filter is the Exhaust Filter. With a huge surface area of 1648cm², it captures even the finest particles to ensure the exhaust air is clean and pure.

PET

Exhaust filter – functional and fun!

The exhaust filter is multi-purpose; keeping the air clean, the machine protected, suppressing motor noise and all in a fun and eye-catching choice of 5 designs.

ICE BLUE

SEBO PARQUET

SEBO have developed this tough and durable parquet brush especially for hard flooring. The "flex" neck design provides superb manoeuvrability. Natural bristles and soft wheels make it ideal for any type of hard flooring, delicate or otherwise. The brushes float up and down to adjust to surface undulations for ultimate performance and the brush strips are removable for easy replacement.

SEBO KOMBI

The SEBO KOMBI has been especially developed by SEBO to meet the need for a durable multi-purpose combination nozzle. Suitable for carpet and hard floor it is designed to move easily over the floor and give excellent cleaning performance.

What our customers say

- "Based on first use, it's brilliant!"
- "Fantastic machine. Really pleased with it so far"
- "Excellent – light and easy to use"
- "I have only used it once, but it is excellent and I can't believe the difference!"
- "Easily goes under objects where machine lies flat"
- "Best vacuum cleaner I have ever had"
- "Very pleased with its performance"
- "An all round domestic engineer"
- "Very pleased. Totally different and better than any previous cleaners"
- "At last I have a cleaner that does everything I want it to do"
- "Cleans brilliantly!"
- "Love using it. Would recommend a SEBO to everyone"
- "I find this machine so superior to my previous one. It will be a joy to use"
- "It's a dream to use!"
- "Absolutely love it! My vacuuming time has been halved since I no longer have to keep going over the same spot"
- "Quiet, excellent suction and very versatile"
- "Very good for dog hair & getting under beds and doing the stairs"
- "It's wonderful!!"

The SEBO Range also includes:

SEBO K Cylinder SERIES
A range of cylinder machines are available

SEBO
K1 Pet

SEBO X Upright SERIES
Available in 2 colours

SEBO
X4 Extra

Stair & Upholstery Turbo Brush

Air driven rotating brush for small or awkward areas. Lifts carpet pile. Gives superior fibre/hair pick up.

Floor and Wall Brush

For rapid dusting of larger areas such as textured walls/ceilings.

Dusting Brush

Has long soft bristles for effective dusting of grooves and delicate surfaces.

Flexible Extension Hose

Enables a total reach of up to 6 metres.

490mm Straight Tube

Gives greater reach, for example, to high ceilings.

SEBO Fresh – Air fresheners

Perfumed capsules emit a pleasant aroma as you vacuum.

Delicate Floor Brush

A soft bristled brush roller is available for use on delicate floor surfaces such as cushion vinyl and wool loop pile carpet.

The DUO dry carpet-cleaning system

For effective spot, carpet and upholstery cleaning – without water.

duo•P One idea – many advantages
A cleaning system with no unpleasant odours, no waiting time for drying, no shrinkage, just excellent results. Endorsements from the GAF allergy research centre in Germany and The British Woolsafe Organisation make duo-P the intelligent choice for those with dust allergies or wool carpets.

The DUO's contra-rotating brushes open up the carpet pile and allow the duo-P carpet cleaning powder deep into the carpet pile and around all of its fibres for optimum cleaning results.

duo•P is made from thousands of micro-sponges. As duo-P is brushed into the carpet pile or upholstery fibres, a cleaning solution in the sponges dissolves the dirt which is then removed when the duo-P is vacuumed out.
