QUALITY IN DESIGN

SEBO has always been at the forefront of vacuum cleaner design and technology, producing the first upright with an on-board hose in 1978. This tradition of innovation, along with advanced engineering skill, has resulted in SEBO becoming the worlds leading manufacturer of professional upright vacuum cleaners.

SEBO automatic X models are vacuum cleaners of professional quality, performance and reliability that are designed for use in the home.

Innovation – The Computer Control System optimises performance by ensuring that the brush is always at the correct height. It also protects the machine, for example by shutting down the motor if there is a blockage. Other innovative and practical features include cassette style brush roller removal and an integrated wand for extended reach.

Performance – The high performance motor, the Computer Control System and the efficient air flow design combine to give outstanding cleaning results - which is why SEBO regularly comes top in independent tests.

Quality – Made in Germany, SEBO vacuum cleaners are constructed from the highest quality materials. Every SEBO vacuum cleaner is fully tested before it leaves the factory and independent surveys consistently show SEBO to be the most reliable upright brand, so that you can be confident that in buying a SEBO, you are buying the best.

SEBO X range benefits:

- > Award winning reliability
- > Built to last
- > 5 year guarantee*
- > Outstanding cleaning performance – on carpet, hard floor and pet hair
- > Comfortable and easy to use
- > British Allergy Foundation approved

Carpet manufacturers recommend SEBO....

....and not just for red carpets. Although many of the world's corridors of power are cleaned with a SEBO, using a SEBO vacuum cleaner will ensure the appearance and longevity of any carpet or flooring whether it's the White House, The Red Lion or 41, Magnolia Avenue!

Made in Germany

*Domestic use only. Conditions apply.

SEBO X RANGE

SEBO automatic X1.1

- > 1150 Watt motor
- > Computer control system
- > S-Class Filtration
- > British Allergy Foundation Seal of Approval
- > Crevice & Upholstery nozzle
- > 7.3kg

SEBO automatic X4 Extra

- > 1300 Watt motor
- > Computer control system
- > S-Class Filtration
- > British Allergy Foundation Seal of Approval
- > SEBO Clean Box
- > Crevice & Upholstery nozzle and dusting brush
- > Extra long hose system
- > 7.4kg

SEBO automatic X4 Pet

- > 1300 Watt motor
- > Computer control system
- > S-Class Filtration
- > Activated carbon odour filtration
- > British Allergy Foundation Seal of Approval
- > Crevice & Upholstery nozzle and dusting brush
- > Stair & Upholstery turbo brush
- > Extra long hose system
- > 7.4kg

SEBO automatic X5 Extra

- > 1300 Watt motor
- > Computer control system
- > S-Class Filtration
- > 'Big foot' cleaning head for large areas
- > 500gms SEBO duo-P included
- > British Allergy Foundation Seal of Approval
- > Crevice & Upholstery nozzle and dusting brush
- > Extra long hose system
- > 7.6kg

VERSATILE VACUUMING

Making life easier.

Intelligent attachment storage

The range of attachments that come with each machine have been designed to be stored 'on board' for quick access and tidy storage when the machine is not being used.

Flat Out

SEBO upright cleaners will work when completely flat, making it possible to vacuum under furniture and other difficult areas.

Extended Reach

SEBO automatic X machines have a patented integral hose and wand for instant use. A long extension hose is also available (standard with the X4 Extra, X4 Pet and X5 Extra) giving you a reach of up to 6 metres. The very long 10m cable also gives a tremendous cleaning range without having to change power points.

INTELLIGENT DESIGN

Performance. Quality. Reliability.

Easy to Handle

The low handle weight, comfortable grip and easy gliding action make for effortless cleaning.

Computer Control System

An on-board computer is at the heart of the enhanced reliability and performance of SEBO automatic X machines.

Powered Height Adjustment

The computer controls the powered height adjustment system, automatically adjusting to the floor surface. It ensures that the brush is at the optimum cleaning position and even compensates for brush wear.

Information Display System

Green lights tell you when the machine is changing height. Red lights indicate when the machine needs checking (for example if there is a blockage).

Auto Shut-down

If a red light is ignored, the computer will automatically shut the vacuum cleaner down to prevent damage and the red light will flash to indicate the nature of the problem.

Easy to Maintain

Through intelligent design, all routine maintenance can be done without tools, and changing the filter bags and filters couldn't be easier.

Guaranteed Belts

Smooth belts waste power – they slip and stretch, break and are awkward to replace. SEBO use reinforced toothed belts, which won't slip or stretch. They are designed to last the life of the machine, and are covered by the 5 year parts and labour guarantee.

PURE PERFORMANCE

No escape for dust

With SEBO, once dust has been picked up, you never have to face it again.

Clean Living

Clean indoor air is paramount for those who suffer from allergies, have pets, small children, or who just want a dust free home. Choosing the right vacuum cleaner is essential to achieve this. The X Range comes with a filtration system of proven effectiveness.

SEBO filter system

SEBO filtration has been proven in professional environments for years. Experienced in providing high quality filtration for hospitals, hotels and office buildings, SEBO offers the same standard for the home with the X Range.

Constant Cleaning Performance

The vertical design enables air to flow into the microfilter through the sides of the multi-layer bag, rather than passing down through all the collected dirt – allowing the vacuum cleaner to give constant cleaning performance.

The filtration system is so effective because it uses the principle of electrostatic attraction.

The filter fibres have a static charge, which attracts particles to them - in the same way that static attracts dust to your television screen! Other filters clog because they act as a physical barrier to dust. The electrostatic material has a relatively open texture which lets air flow easily yet traps dust particles, thus giving excellent filtration **AND** excellent suction.

Proven Filtration

The exhaust air of the SEBO automatic X has been independently proven to meet the highest level of filtration, S-CLASS, by the independent German institute, SLG.

British Allergy Foundation Seal of Approval

British Allergy Foundation tests found that the filtration system removes 100% of dust mite allergen and the SEBO bag system made emptying ultra hygienic.

Clean and Convenient to Empty

Open the cover and the bag is automatically unloaded from the machine. Seal the bag and drop it in the bin, simple.

SEBO's patented multi-layer, sealable filter bags effectively retains bacteria, allergens and other potentially harmful substances for safe disposal.

Certified Filtration Quality

The S-Class-Filtration system meets the demanding requirements of asthma and allergy sufferers, because fine dust particles are firmly retained inside the machine and not released into the air.

Three stages of filter clean the air before it is exhausted.

A. Stage one consists of the sealable multi-layer filter bag. This effectively retains bacteria, allergens and other potentially harmful substances for safe disposal.

B. The second stage is the Micro Filter, positioned beside the filter bag, which also protects the motor.

C. The third filter is the Exhaust Filter. This final filtration process ensures the air emitted from the vacuum cleaner is clean and pure.

WE ♥ SEBO

What our customers say

"The best vacuum cleaner I have ever used. Brilliant! Makes life easier!"

"Excellent cleaner. Wouldn't buy any other make"

"You don't have to look at all the stuff you have sucked up, also come the time to empty, you don't have to breathe it in!"

"Recommended by my physiotherapist"

"A great product. Simple and easy to use"

"Brilliant vacuum cleaner"

"This is an excellent machine. A good looking, good performance vacuum cleaner! We think the best on the market!"

"Delighted with the performance, compact design and high quality"

"A pleasure to use"

"Fantastic suction even though lower wattage than many other models and therefore more economical"

"Simply the best vacuum I have ever used"

"Far superior to my previous vacuums"

"Very efficient vacuum. Great on carpet. Almost drives itself. Easy to use. Light"

"Very pleased with the performance. Tools are easier to use. Cleans well"

"Without doubt the best vacuum cleaner on the market. Every home should have one"

The SEBO Range also includes:

SEBO K Cylinder Series
A range of cylinder machines are available

SEBO K1 Komfort

SEBO Felix Upright Series
Available in a range of colours

SEBO Felix Navy

OPTIONAL ACCESSORIES

Dusting Brush*

Has long soft bristles for effective dusting of grooves, etc, without causing damage to delicate surfaces.

490mm Straight Tube

Gives greater reach, for example, to high ceilings.

Floor and Wall Brush

For hard floors which are either too rough or too delicate for an upright and for rapid dusting of textured walls/ceilings.

Flexible Extension Hose*

Enables a total reach of up to 6 metres.

Radiator Brush

Fits onto the end of the crevice nozzle. For dusting/cleaning into narrow spaces.

Stair & Upholstery Turbo Brush**

Air driven rotating brush for small or awkward areas. Lifts carpet pile. Gives superior fibre/hair pick up.

Combined S-CLASS/odour filter**

Combines S-CLASS filtration with activated carbon for odour control – ideal for households with pets.

Special Upholstery Nozzle

Flat for vacuuming the seams of upholstery.

SEBO Fresh – Air fresheners

Perfumed capsules emit a pleasant aroma as you vacuum.

Delicate Floor Brush

A soft bristled brush roller is available for use on delicate floor surfaces such as cushion vinyl and wool loop pile carpet.

The DUO dry carpet-cleaning system
For effective spot, carpet and upholstery cleaning – without water.

The DUO's contra-rotating brushes open up the carpet pile and allow the duo-P carpet cleaning powder deep into the carpet pile and around all of its fibres for optimum cleaning results.

Duo-P One idea – many advantages
A cleaning system with no unpleasant odours, no waiting time for drying, no shrinkage, just excellent results. Endorsements from the GAF allergy research centre in Germany and The British Woolsafe Organisation make duo-P the intelligent choice for those with dust allergies or wool carpets.

Duo-P is made from thousands of micro-sponges. As duo-P is brushed into the carpet pile or upholstery fibres, a cleaning solution in the sponges dissolves the dirt which is then removed when the duo-P is vacuumed out.

* Standard with the X4 Extra, X5 Extra and X4 Pet.

** Standard with the X4 Pet.
