

TECHNICAL BULLETIN No. 010 LB - Sept. 05, 2003 (Updated on: April 12, 2006)

SUBJECT: Stock management of carbon brushes & holders assemblies for commutator motors, as fitted on Candy made washing machines.

While checking the database used by the Giastech software to create the lists of the spare parts, we realized that the information about the part numbers of the carbon brushes & holders assemblies (ref. 483a – brush with brush holder) is sometimes not complete.

In order to make it easier for you to find the necessary part numbers, please find in the hereunder table the list of all part numbers of all brushes & brush holders assemblies, now managed in our stock. The picture below is supposed to help you, in identifying the type of the motor which was fitted on the washing machine.

DESCRIPTION OF THE SPARE PART	PIECES	PART NUMBER
Brush & brush holder assembly, for HOOVER motor.	2	91212332
Brush & brush holder assembly, for CESET motor.	1	92126721
Brush & brush holder assembly, for SOLE motor.	1	49000466
Brush & brush holder assembly, for SELNI motor.	1	49008106

Best regards.

GIAS S.r.l.
