Registered in England at the above address, certificate no. 281817. VAT Registered No. GB 217 8102 81

## PRODUCT INSTRUCTIONS

Product Code : **2580U** Description : **Vent Sizing Gauge 5mm – 10mm**

### INSTRUCTIONS

Overcomes difficult job of measuring vent slots

The gauge is used measure the size of the slots and thus to calculate the area of ventilation provided by a vent where this information has not been marked on to the unit. The gauge is stepped in increments of 1 mm and will measure vent slots from 5 mm up to 10 mm.

Simply push the gauge in to the vent slot until it stops and then count up or down the steps until you have the size in mm. You then multiply the slot size against the length of the slot, multiply that figure by the number of slots on the vent and this will then give you the area of ventilation.
