DRAIN
CLEANER**

ROEBIC Bacterial Drain cleaner is a non-caustic bacterial-enzyme product that works through bacterial action. Applied weekly, BDC keeps pipes and traps flowing freely. Use as needed to reopen slow and sluggish drains. Unlike ordinary drain cleaners, BDC will not harm the natural bacteria in cesspools and septic tanks. It is non-corrosive and will not damage pipes or burn skin.

Used regularly, BDC will prevent build-up of the organic matter that creates odors and a breeding ground for insects and flies.

DIRECTIONS:

SINKS, SCRUB SINKS, BATHROOM SINKS: Using the convenient measuring cap, add 2 ounces (1st line inside cap) to 1 gallon of warm water. Dissolve fully. Pour this solution into the drain. Allow solution to stand overnight (6-8 hours). Rinse with hot water the following morning. This will flush out loosened debris, fats and food residuals.

GARBAGE DISPOSALS: Using the convenient measuring cap, add 3 ounces (2nd line inside cap) to 1 gallon of warm water. Dissolve fully. Slowly pour solution into garbage disposal while turning it on and off 2 or 3 times. Let stand overnight. Rinse with warm water the following morning.

CAUTION: DO NOT POUR POWDER DIRECTLY INTO ANY DRAIN or TRAP. PRODUCT MUST BE FULLY DISSOLVED IN WARM WATER BEFORE APPLICATION.

ADVERTENCIA: NO DERRAME EL POLVO DIRECTAMENTE DENTRO DE CUALQUIER DRENAJE O DESAGUE. ESTE PRODUCTO DEBE DE ESTAR COMPLETAMENTE DISUOLVIDO EN AGUA TIBIA ANTES DE SU APLICACION.
