ROEBIC® RV & MARINE HOLDING TANK TREATMENT

Designed for use in motor-homes, boats, chemical toilets, and outside latrines to reduce solids and control odors. The combination of ingredients, including specialized bacteria to rapidly digest solids, results in effective odor control **without the use of methyl alcohol or formaldehyde**. Holding tanks treated with Roebic can be dumped at any dumping station or septic tank without adding harmful chemicals to the system.

DIRECTIONS

1. HOLDING TANKS - Apply four (4) ounces to empty tank through toilet or sink. Repeat this procedure after each dumping of tank contents.

2. OUTSIDE TOILETS - Apply as needed full strength, or for larger volumes dilute 1 to 1 with water to maintain liquid condition.

Do not mix with methyl alcohol or formaldehyde products as activity will be reduced.

Do not take internally
Keep out of reach of children
Non-flammable
